DETAILED ACTION

Status of the claims: Claim 1 is currently pending.

Priority: This application is a 371 of PCT/JP04/09355 (06/25/2004) and claims foreign priority to JAPAN 2003-182039 (06/26/2003).

Election/Restrictions

1. Applicant elected without traverse group I:

Group I, claim(s) 1-32, in part, drawn to a product with the core formula of

Double Patenting

2. Claim 1 was provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claim 1-30 of copending Application No. 11/822,941. This rejection is maintained.
3. Applicant argues that an ODP rejection is improper because the '941 application was filed as a divisional of the instant application. However, when the claimed subject matter overlaps in scope, an ODP rejection is proper even when filed as a divisional application in response to a restriction requirement.

Claim 1 of the instant application is for the compound:

Art Unit: 1626

N-(3-(4-isopropylphenyl)-4,6,7-trimethyl-2,3-dihydro-1-benzofuran-5-yl)-3,3-dimethylbutanamide .

The copending application '941 includes generic claims encompassing the

subject matter of the instant claims such as:

and '941 teaches at

[0044] the species of the instant claims. Thus, one of ordinary skill in the art would be directed to make the identical invention in the '941 application. Therefore the ODP rejection is proper. Furthermore, species within the restricted scope species such as in claim 30:

N-(3-(4-isopropylphenyl)-7-methoxy-4,6-dimethyl-2,3-dihydro-1-benzofuran-5-yl)-3,3-dimethylbutanamide

are within the scope of the elected group I.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Conclusion

The claims are not in condition for allowance.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
